

*** 6 Reasons to GIVE to St Jude ***
during

Shiloh Baptist Church's Sunday of Hope Campaign
April 22, 2018

Two hands are shown in silhouette, holding up the word "HOPE" in large, bold, capital letters. The word is illuminated from behind, creating a bright glow. The background is a soft, light green gradient with a faint rainbow on the left side.

HOPE

1. Families never receive a bill from St. Jude
2. 40% of the children being served at St. Jude facilities are African American.
3. St. Jude is a leader in the treatment of sickle cell disease.
4. St. Jude shares its research at no cost with other institutions.
5. Since 1962, treatments invented at St. Jude have helped push the overall childhood cancer survival rate from 20% to more than 80%.
6. St. Jude Children's Research Hospital is leading the way the world understands, treats and defeats childhood cancer and other life-threatening diseases such as sickle cell anemia.
